AFTER YOU BRONZE

- Do not moisturize or touch skin after service
- Do not shower for 12 hours for optimal results

- Your first shower after airbrushing rinse with water only
- After shower PAT skin dry and moisturize with a good lotion that has NO MINERAL OILS !!

MAINTAINING YOUR BRONZE

- Use our Bronzed take home spray, OR an Aviva kit to touch up faded areas
- Use unscented soaps, avoid soaps with high PH levels
- Avoid prolonged time in water, pools and hot tubs (this can cause Bronze to fade quickly)
- Do not use perfume on skin, instead spray it on your clothing
- Moisturize often with an aloe based moisturizer, no oils!!
